## DETAILED ACTION

### *Terminal Disclaimer*

1. The terminal disclaimer filed on 22 November 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 6,396,537 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### *Allowable Subject Matter*

2. **Claims 1, 3 – 14, and 29** (now renumbered 1 – 14, respectively) are allowed.
3. The following is an Examiner's statement of reasons for allowance:

The closest prior art discloses, in the very least, an image recording system wherein cameras are located throughout an amusement park and each guest to the park is associated with a unique identifier contained within a readable tag, such as card, badge or pendant. Tag readers at attraction sites identify guests when they are at a particular location and provide identification and location information to a control system. A communications network is used to interconnect the cameras, tag readers, control system and image recording devices to present guests with a personal set of collected images.

However, the closest prior art does not teach or fairly suggest a camera that receives content data from an attraction site and relates an interest of the camera user to a portion of the received content data, wherein the interests of the user are predetermined personality data stored in the camera, and wherein the personality data is transferred to the attraction site based upon the portion of the received content data.

Art Unit: 2612

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2612
